

HabaCHAIN[®]

Multi-Hub - Inserts

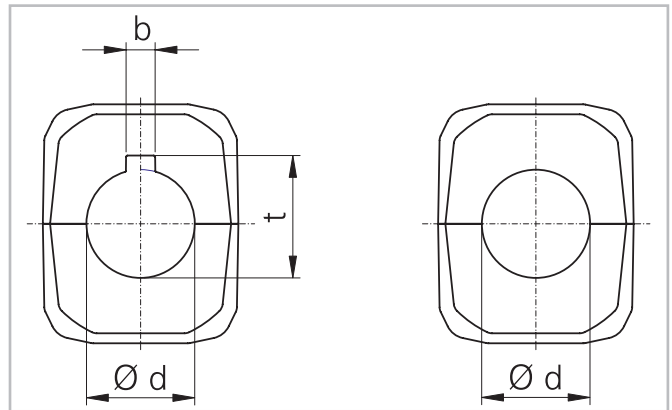

Your Source For Habasit
Belting And Chain

www.StilesEnterprises.com • 1-800-325-4232

Description

- Available with round bore only (RL type) or with metric keyway according to ISO standard or imperial keyway according to ANSI standard (RZ type) or square bore (QZS type)
- RZ types are designed to clamp on standard shafts and are suitable for drive applications with all Multi-Hub sprocket rims
- QZS types need retainer rings for axial fixation.
- RL types are designed to spin free on standard shafts
- RL types consist of extra low friction POM (Acetal) material for optimal sliding properties
- RL type inserts can be used for Multi-Hub sprocket rims (intended to be used as an idler) and Multi-Hub idler rims

Sprocket data

Habasit code	Insert type	Bore size Ø d		b		t		Bore shape	Material
		mm	inch	mm	inch	mm	inch		
H025RZ	Drive	25.0		8.0		28.3		Round with keyway	LI
H030RZ	Drive	30.0		8.0		33.3		Round with keyway	LI
H035RZ	Drive	35.0		10.0		38.3		Round with keyway	LI
H040RZ	Drive	40.0		12.0		43.3		Round with keyway	LI
H040QZS84+GS	Drive	40.0						Square	LI
H100RZ	Drive		1.00		0.25		1.12	Round with keyway	LI
H125RZ	Drive		1.25		0.25		1.37	Round with keyway	LI
H144RZ	Drive		1.44		0.38		1.61	Round with keyway	LI
H150RZ	Drive		1.50		0.38		1.67	Round with keyway	LI
H150QZS84+GS	Drive		1.50					Square	LI
H025RL	Idler	25.0						Round	L
H030RL	Idler	30.0						Round	L
H035RL	Idler	35.0						Round	L
H040RL	Idler	40.0						Round	L
H100RL	Idler		1.00					Round	L
H125RL	Idler		1.25					Round	L
H144RL	Idler		1.44					Round	L
H150RL	Idler		1.50					Round	L
